**Reporting Updates**

**New Parameter on the Income Statement**

A new parameter presenting transfer activity below the net income line is available when running an income statement report. The parameter breaks out transfer object codes from above the net income line displaying *Net Income before Transfers* and *Net Income after Transfers*. This allows units to better assess their overall financial health and aid in financial decision-making.

The new report feature will be a requirement when submitting UCO closing materials. Users can run an income statement by selecting the Financial Statement Reports or Multi-Year Financial Statement Reports located in the Financial Statements tile of the Controller's Office Reporting Tools.

For assistance running the reports, or any other questions, please contact University Accounting and Reporting Services (UARS) at uars@iu.edu.

**Fiscal Year 2023 Fringe Benefit Rates**

The Office of the University Controller (UCO) is responsible for the calculation of annual fringe benefit rates. Rates for Fiscal Year 2023 (FY23) have been finalized and are now part of budget construction. The table pictured below reflects benefit rates for FY23.

Release of 1099/1098-T/W-2 Tax Forms

UCO has released all 2021 Forms W-2, 1098-T, and 1099. Please notify your staff and suppliers as necessary. If students or staff approved electronic consent, they can access 1098-T and/or W-2 forms via One.IU.edu by typing in the related form number in the search field. All Form 1099s were sent via postal mail. Additional information on these and other forms can be found on the Tax Filing Information page.

Please request all students, staff, and suppliers submit any questions via the UCO Contact Us page.

Payroll

Paycheck Reissue Process
Please review PSOP 8.0 - Paycheck Reissue Process. This SOP provides the process for replacing a paper payroll check that is lost, stolen, or mutilated.

Addition of Object Code 4772 Repair Parts

The object code dictionaries for BUY.IU and Chrome River have been updated to include object code 4772 Repair Parts. Historically, object code 4700 was the only object code available when repair parts and/or labor were being purchased through BUY.IU or Chrome River. If your repair purchase includes parts and labor, please continue to use object code 4700. If you are purchasing parts only, object code 4772 is available for use on those purchases.

For assistance with choosing which object code to use when purchasing repair parts and/or labor, please contact University Accounting and Reporting Services (UARS)
Inactivation of Delegates Postponed to April

Effective April 2022, UCO will perform an initial update to inactivate KFS Delegates that are no longer associated with IU. This update will continue to be run by UCO on a scheduled basis in the future.

The Account Role and Delegate Status Report was created to assist with the ongoing management of KFS account responsibility roles (Fiscal Officer, Account Manager, and Account Supervisor) and primary and secondary delegation assignments that are no longer valid or appropriate. This report is now in production; however, we recommend that Fiscal Officers wait until after UCO performs the initial bulk update in April to run the report and make changes. Starting in May 2022, Fiscal Officers should run the report and perform the appropriate updates on a quarterly basis.

Instructions for running the report will be posted soon and available on the report page itself. Please contact University Accounting and Reporting Services (UARS) at uars@iu.edu with any questions.
